

THE UNIFIED VOICE FOR HEALTH INVESTMENTS

FOR MORE THAN 45 YEARS, THE COALITION FOR HEALTH FUNDING HAS BEEN THE LEADING VOICE IN STRENGTHENING PUBLIC HEALTH AND HEALTH RESEARCH THROUGH ADVOCACY AND EDUCATION. OUR NONPROFIT MEMBER ORGANIZATIONS REPRESENT THE INTERESTS OF MORE THAN 100 MILLION PATIENTS, HEALTH CARE PROVIDERS, PUBLIC HEALTH PROFESSIONALS, AND SCIENTISTS.

With the collective appreciation that “a rising tide lifts all boats,” the Coalition’s dues paying members work collaboratively to increase discretionary funding for the Department of Health and Human Services (HHS), its principal agencies — AHRQ, CDC, FDA, HRSA, Indian Health Service, NIH, SAMHSA — operating divisions, and offices and programs that support and protect America’s health. Together, these investments spur innovation through scientific discovery, prevent disease, disability, and injury, assure food and drug safety, protect and respond in times of crisis, educate the next generation of scientists, health care providers and public health professionals, and provide our nation’s most vulnerable access to care.

The Coalition works to influence all aspects of the federal budget process—from the preparation of the president’s budget to the development of appropriations bills—as well as all macro fiscal policies that stand to impact public health and health research.

Providing Partners Access to Nation’s Leaders and Leading Advocates

By supporting the Coalition for Health Funding and our mission, corporate partners help protect health funding for the benefit of all Americans, and directly benefit from added visibility and access to our robust community of health advocates. Specifically, our corporate partners receive:

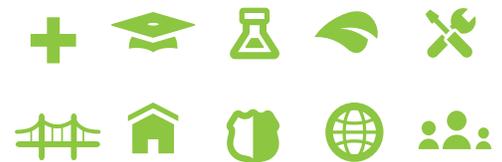

- **Access** to our diverse members and White House, congressional, and agency officials through the Coalition’s monthly, members-only forums, helping our partners make new connections and providing additional opportunities to communicate their priorities to policymakers.
- **Visibility** through the Coalition’s congressional briefings, “Hill Days,” receptions, and television, radio, and print media appearances, as well as special recognition on our Website, www.publichealthfunding.org. Corporate partners also have the opportunity to promote their events, publications, and initiatives through our e-newsletter delivered daily to more than 300 health advocates.
- **Timely Intelligence** on the status of fiscal policies and spending legislation, along with expert analysis of the implications for public health and research through our daily e-newsletter.

NDD UNITED

Working Together to Strengthen America

In 2011, the Coalition for Health Funding founded NDD United, an alliance of thousands of organizations across myriad sectors working to protect investments in core government functions that benefit all Americans. NDD United’s coordinated efforts to stop sequestration—including our report, *Faces of Austerity: How Budget Cuts Make Us Sicker, Poorer, and Less Secure*—culminated in the passage of the Bipartisan Budget Act of 2013 and 2015 and were recognized by *The Hill* as one of the “Top Ten Lobbying Victories of 2013”. Visit www.nddunited.org for more.

The Coalition for Health Funding continues to lead NDD United and tell the stories of those hurt by sequestration in our follow-on report, *Faces of Austerity: How Budget Cuts Hurt America’s Health*, available at www.cutshurt.org.

COALITION *for* HEALTH FUNDING

For more information, please contact the Coalition’s Executive Director, Emily Holubowich, at 202.484.1100 or eholubowich@dc-crd.com. You may also visit our website www.publichealthfunding.org, and follow us on Twitter [@healthfunding](https://twitter.com/healthfunding)

THE UNIFIED VOICE FOR HEALTH INVESTMENTS

Join Us to Protect Health Funding

Budget cuts loom due to fiscal constraints, competing priorities, and political pressures to rein in “big government” as the demand on the health infrastructure only increases. A strong and effective Coalition for Health Funding is necessary to unite the community with one voice in support of a strong and sustained investment in the health continuum for the benefit of the nation.

We must remain unified and vigilant in educating policymakers about the value of public health...and the costs of neglecting it.

All corporations that support the health continuum are eligible to apply for corporate partnership at an annual dues rate of \$10,000. All corporate partners are subject to approval by the Coalition’s Board of Directors, as required by our Bylaws.

Corporate partners receive the Coalition’s daily e-newsletter, are recognized on our Website, and have the option to gain additional visibility in Washington through sponsorship of the Coalition’s events.

Corporate partners do not have a vote on Coalition matters of business and are ineligible to serve on the Board of Directors, per the Coalition’s Bylaws.

The Coalition for Health Funding is frequently sought out by and quoted in television, radio, and national and trade print media as a reliable source of information and insight on public health and fiscal policy. Recent appearances include:

- **MSNBC**
- **National Public Radio**
- **USA Today**
- **The New York Times**
- **The Washington Post**
- **The Wall Street Journal**
- **Politico**
- **Reuters**
- **Bloomberg**
- **CNN Money**
- **Huffington Post**
- **Congressional Quarterly, CQ Roll Call, and CQ HealthBeat**
- **The Hill**

Praise from Our Members

“Every year when we are re-upping our membership I remind myself and my bosses that being a part of the Coalition is so valuable and we get so much good information it is equivalent to getting an additional half-time senior appropriations staff on board. For a couple thousand dollars, that is a real value.”

“Our Coalition for Health Funding membership is money well spent. You save me MANY hours of work!”

“The e-newsletters from the Coalition for Health Funding are outstanding and provide better information than CQ or other trade publications. I couldn’t understand and report on the appropriations process without them.”

“The Coalition for Health Funding is active with the administration and Capitol Hill, coordinates with other coalitions, and provides great email intelligence—hard to imagine what else you could do to help keep us informed!”
